DETAILED ACTION

Status of Claims

1. Claims 1-15 remain for examination.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claim 1, 10, and 13-15 are rejected under 35 U.S.C. 102(e) as being anticipated by Taylor (6,558,231) and Zhou et al. (6,403,931 as incorporated by reference therein (Taylor col. 2 line 62).

4. Taylor as evidenced by Zhou et al. is applied to the claims for the same reasons as stated in paragraph(s) 2 of the previous office action. Claim amendments are only grammatical and do not change the scope of the claims.

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claims 2-9 and 11-12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Taylor (6,558,231) as applied to claim 1 above, and further in view of Gimaev et al. (5,833,835).

7. Taylor in view of Gimaev et al. is applied to the claims for the same reasons as stated in paragraph(s) 3 of the previous office action. Claim amendments are only grammatical and do not change the scope of the claims.

Response to Arguments

8. Applicant's arguments filed 19 December 2007 have been fully considered but they are not persuasive. In regards to Applicant's argument that all claimed elements must be in a single prior art reference for a 35 U.S.C. 102(b) rejection and that a "incorporated by reference" statement to a previous disclosure in said prior art cannot be relied upon, Applicant is reminded that prior art *inherently* teaches all claimed elements and that specific properties and/or details are disclosed properly in an "incorporated by reference" statement in said prior art. Applicant is reminded that a patent application or patent's disclosure is consider to include each and every word of the disclosure of applications/patents that are "incorporated by reference."

Conclusion

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

10. A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the

Art Unit: 1795

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
